Title: What do K-12 education, the modern battlefield, the movie Memento, and a 64,000 student Stanford MOOC have in common?

Speaker: Keith Devlin (Stanford University)

Time and Date: Monday 11 February 2013, 3:00pm

Location: Room 15.113

Abstract: Mathematics provides the answer. In fact, mathematics is the answer. More precisely, mathematical modeling is the answer. More precise still, it’s about the process of constructing a mathematical model.
